Sekelbos Sicklebush (Dichrostachys cinerea) 18kg

R57.00 – R63.00

Sicklebush is an alien pest in Namibia. Rainfall determines how thick the tree will be. We import it because the quality is so much better than the local Sicklebush. Sicklebush burns hot with vibrant red/orange flames. It is a clean burning wood with a very distinctive smell when burning, and is fantastic for naturally adding flavour to your meat while it cooks.

- The coals burn long and outlast Rooikrans by 3-4 hours while still maintaining their heat.
- Sicklebush, with all its flavour, passionate and colourful flames, is by far the best-selling wood.

Size of wood pieces may differ from batch to batch.
